ECMO / ECLS / ELSO Cart

Respiratory therapy cart engineered for stable, mobile extracorporeal support workflows.

Features

- 304 stainless-steel construction
- 1.25" diameter posts for standard medical equipment attachments
- 5" diameter locking casters with 2" wide wheels designed to clear elevator threshold gaps
- Height-adjustable IV pole positionable on any cart corner
- O₂ tank holder movable to any cart corner
- Six-outlet, 20A patient-vicinity medical-grade power strip on the bottom shelf for easy cable management
- Upper and lower shelves support 120 lb each; shelf size is 21" x 16"
- Recessed frame and outrigged casters provide a low center of gravity for maximum stability
- Removable side handles
- Footprint: 26.75" W x 32.75" D x 45.5" T, plus IV pole height
- \$5,495 for quantities 1-5; volume discounts at 6+

RASPBERRY MED

BETTER TOOLS. BETTER CARE.
